

LightWave GL Net

CR Type	CR #	CR Title
New Feature	265	Title: SMS: During Reading Mobile numbers for Customer/Suppliers system should pick required format. Description: For New customer suppliers' mobile numbers we suggest format that is supported by our system i.e. 923467977777 but For Existing Customers/suppliers system should read mobile number in this required format instead of creating trouble for user to go and correct one by one each customers/suppliers mobile number. i.e. if format is 03001234567 system should convert it to 923001234567, if format is 9203001234567 system should convert it to 923001234567.
Defect Fix	262	Title: P&L Month Wise Report: Group Rights are not being implemented Description: 1-If revoke group rights of 'Print' and 'Export to Excel', system does not disable these two buttons on the report 2-If export to excel, system does not show any text on the message box except an OK button 3-If there is nothing in the grid, system should not export or print but a message should be displayed that 'No data to export/print'
New Feature	264	Title: Build a utility for Re-Indexing database Description: New utility will be added in lightwave for Re-Index tables. Sometime trial balance gets stuck and its solution is Re-indexing.
New Feature	272	Title: Send SMS: System should accept different mobile number formats to send SMS Description: Send SMS: System should accept different mobile number formats to send SMS. i.e. >> +92 0346 799 9797 >> + 92 3467999797 >> 092 0346 7999797 >> 0346799797 >> 0346-799-9797 >> 92 346 7999797
Defect Fix	266	Title: Profit & Loss Month Wise: Some changes are required plus detail report for P & L month wise is required Description: Following changes are required, 1) Sales Net and Profit and taxation text should be bold and fore color as Maroon. 2) All other headings should be Bold and Fore Color will be Black. 3) Add new column which will show Total of each Row. 4) Financial Year selection should be optional. 5) Add a new column at the end of report which will show each tuple average. 6) Summary and detail options are required. When detail option will be selected report will show P&L up to transactional level. For Detail and summary either add two options button (one for detail and other for summary) or provide grid collapse/expand facility with a collapse all button on screen.
New Feature	267	Title: Build a new utility to import lightwave data from source to destination database. Description: Build a new utility to import lightwave data from source to destination database..This utility will be used to transfer data from standalone lightwave database in candela database which is necessary for Candela & Lightwave integration.
Defect Fix	274	Title: Profit & Loss Month Wise Report: Some changes are required Description: 1) when No financial year is selected, start date should be selected of the previous years 2) On detail report, when there is no data in the grid then on clicking Expand/Collapse buttons, exception occurs
